PRIVATELY OWNED STORM DRAIN INLETS

As part of the **Borough's Stormwater Management Ordinance** and **NJDEP Tier A Stormwater Permit requirement**, the Borough is responsible to make sure all privately-owned storm drain inlets are maintained and cleaned at a frequency of not less than once per year.

The DPW is **required as a part of any site plans and before finalizing such plans**, the storm drain inlet location and direction of flow. The **Borough will require** that they are **given a digital copy of the same**. Also, DPW **will need contact information for who will be handling the maintenance/compliance of the inlets** upon the completion of the project. **Failure to submit the correct documents will result in rejection of the project.**

COMPLIANCE IS MANDATORY

Please submit your Information to:
